

## Product Information: Geartech EP 75W-80

### Description

Geartech EP 75W-80 is a high quality automotive manual transmission fluid, manufactured from highly refined, virgin mineral base stocks which incorporate an advanced additive system. The fluid provides excellent extreme pressure and anti-wear performance, whilst offering superb protection against rust and corrosion.

The product is thermally stable and exhibits excellent resistance to oxidation and foaming, the product displays outstanding shear stability and offers smooth shift performance. The excellent cold flow performance of the fluid offers outstanding protection at low start-up temperatures.

### Applications

Geartech EP 75W-80 is recommended for use in a wide variety of automotive manual transmission systems and some final drive units fitted to passenger cars, vans and LCV's, where the original equipment manufacturer recommends a fluid of this quality, performance level and viscosity.

### Performance Features

- Excellent extreme pressure performance
- Outstanding wear and scuffing protection
- Excellent thermal stability
- Resistant to oxidation
- Excellent foam control
- Cold temperature performance
- Excellent shear stability
- Smooth shifting performance

### Performance Levels

API GL-4

### Typical Data

Characteristic	Unit	Result
Density @ 15.6°C	kg/l	0.879
Kinematic Viscosity @ 40°C	cSt	55.8
Kinematic Viscosity @ 100°C	cSt	8.7
Viscosity Index		132
Flashpoint (Closed)	°C	175
Pour Point	°C	-35
