

## Product Information: Log Splitter Oil 22

### Description

Log Splitter Oil 22 is a high quality, virgin mineral oil based lubricant specially formulated for use in various types of hydraulic log splitters. The product exhibits excellent wear control is highly resistant to oxidation and foaming as well as protecting against corrosion. The product offers excellent cold weather performance ensuring smooth and consistent performance from start-up.

### Applications

Log Splitter Oil 22 is recommended for use in both petrol and electric powered hydraulic log splitters, where a lubricant of this performance level, quality and viscosity is recommended by the original equipment manufacturer.

### Performance Features

- Excellent wear control
- Resistant to oxidation
- Resistant to foaming
- Protection against corrosion
- Cold weather performance

### Performance Levels

- DIN 51524 Part 2 (HLP)
- ISO 6743-4 (HM)
- Denison Hydraulics: HF-2

### Typical Data

Characteristic	Unit	Result
Density @ 15.6°C	kg/l	0.865
Kinematic Viscosity @ 40°C	cSt	22
Kinematic Viscosity @ 100°C	cSt	4.3
Viscosity Index		101
Flashpoint (Closed)	°C	204
Pour Point	°C	-30
